

# Baby Awesome's Christmas Crab

## Instructions:

- 1) Cut shape on left from pattern sheet and trace onto a sheet of red felt. Cut around solid black line.
- 2) Cut two small ovals from black felt and attach (sew or glue) to act as eyes. Alternatively you can use beads or fabric paint.
- 3) Add embroidery decoration to one side of crab if desired. Suggested stitches are shown above.
- 4) Fold piece in half so top and bottom pieces match. Sew along two dashed lines as indicated on pattern piece, ensuring that your candy cane fits through and is held snug.
- 5) Sew (blanket stitch is recommended) or glue front and back pieces together, to finish crab.
- 6) Insert candy cane into crab's claws and hand from tree!

Merry Christmas from Eskimimi Makes!
